Portugal's Participation at Euronaval 2024 – AED Cluster Showcases Portuguese expertise in Maritime Defence and Security

AED Cluster Portugal (the Portuguese Aeronautics, Space and Defence Industries Cluster) will participate in Euronaval 2024, the world's largest naval defence event, from 4 to 7 November in Paris, reinforcing Portugal's role in the global defence and maritime security industry.

At the national stand (Hall 6, Stand B43), under the **high patronage of the Ministry of National Defence** and supported by the **Portuguese Embassy in Paris**, the **Portuguese Armed Forces**, **AICEP Portugal Global**, and **Fórum Oceano**, the AED Cluster brings together some of Portugal's leading companies in the sector, reflecting its commitment to maritime defence and security and standing out for its strong emphasis on innovation and international collaboration.

Exhibitors at the national stand include:

- **Blue Oasis:** Advanced solutions in underwater acoustics and AI for maritime security.
- **Beyond Composite:** State-of-the-art ballistic protection crafted from high-performance composite materials.
- **Beyond Vision:** UAVs featuring innovative AI algorithms and cloud-based drone management.
- **Oceanscan:** Subsea robotics and maritime monitoring technologies.
- **Tekever:** Market leader in UAVs for intelligence, surveillance, and reconnaissance in maritime environments.
- **Veranavis:** Naval architecture and engineering, with a focus on oceanic and coastal patrol vessels, developed in collaboration with the Portuguese Navy.

The Portuguese delegation at Euronaval will also include representatives from additional organisations contributing to the cluster's excellence in areas such as **military communications** (EID), **technical documentation and simulation and testing engineering** (Meditor DAS), **optical systems and space hardware** (Lusospace), and **precision tooling** (Ricardo & Barbosa).

On **4 November**, at **15:00**, AED Cluster Portugal invites its national and international partners to a **Networking Cocktail** at the national stand, joined by His Excellency the **Minister of National Defence of Portugal**.

About

AED Cluster Portugal is the Portuguese Aeronautics, Space, and Defence Industries Cluster, established in 2016 as a private, non-profit association. In 2017, it received official recognition from the Portuguese Government as an "Emerging Competitiveness Cluster."

With over 140 member entities operating in Portugal, the Cluster brings together the key stakeholders across these three sectors, positioning itself as both an entry point to the country and a driver of engagement for national and international actors.

AED Cluster Portugal's strategic roadmap is based on four key pillars – Funding and Regulation; People and Skills; Innovation and Value; and Markets and Opportunities – with the clear mission of advancing Portugal as an international reference within the global Aeronautics, Space, and Defence markets.
